

Sliquid Naturals Sassy

PURIFIED WATER - Nature's purest ingredient, purified H₂O makes up 94% of this glide.

PLANT CELLULOSE - Derived from cotton, our plant cellulose serves as a natural, vegan friendly & gluten free thickening agent that gives Sliquid it's glide.

CYAMOPSIS - Otherwise known as Guar conditioners, Cyamopsis is a natural product derived from the Guar bean that conditions the Plant Cellulose and helps thicken the formula.

POTASSIUM SORBATE / SODIUM BENZOATE - These two ingredients are the most gentle, body safe, non-toxic, non-irritating preservatives used to extend shelf life and prevent contamination.

CITRIC ACID - A natural anti-fungal, citric acid works together with Potassium Sorbate to act as a pH buffer, ensure product purity and extend shelf life.

Important: Do not use if safety seal is broken/missing. Should any irritation occur, discontinue use at once. Keep out of children's reach.

Naturals Sassy is an ultra thick water based gel intimate lubricant. Sassy contains the same ingredients as Sliquid Naturals H₂O, but is formulated with additional plant cellulose to create a thicker gel, which provides more padding when engaging in anal play as well as in use with toys. The gel stays in place, is longer lasting and helps to reduce naturally occurring friction for a more enjoyable experience. To ensure the safety of our customers, Sliquid Naturals Sassy does not include any desensitizing agents as this may lead to tissue damage. Like all Sliquid products, Sassy does not contain any parabens, DEA, or sulfates, and is 100% vegan friendly.

*Created by sensitive women,
For sensible women.*
